SPORTING GUNS & RIFLES
Welcome

At John Rigby & Co., heritage is at the heart of all that we do. Since returning to London six years ago we have stayed true to our traditions, making guns in the same time tested ways. This allows our clients to hunt with the same passion as the Rigby adventurers of the past, with confidence that no matter where they travel, whether that be heather-covered hills, snow-capped mountains or sun-baked plains, our guns will stand the test of time.

By popular demand, we’ve also expanded our carefully selected range of hunting apparel and accessories. Like our guns, these combine the best in modern craftsmanship with traditional materials, techniques and style. For the ultimate Rigby experience, we now also offer bespoke safari packages.

For those of you who are interested in finding out more about what we do, I look forward to welcoming you to our store in London.

Highland Stalker

Hailed as a traditional deer-stalking rifle, the new Highland Stalker is inspired by the same smaller calibre rifles Rigby produced at the turn of the 20th century that were used by iconic British adventurers such as Karamojo Bell and Jim Corbett. Rigby regards the Scottish Highlands as the birthplace of stalking and the title befitting the rifle.

“The most exciting rifle that Rigby has created in a generation.”
**CALIBRES**

The Highland Stalker is available in the following calibres:

- .275 Rigby
- .308
- .30-06
- 8x57
- 9.3x62

**STANDARD FEATURES**

- Grade 5 Turkish walnut stock
- Rigby name and calibre engraved on barrel
- Back sight engraved and regulated to 65, 150 and 250 yards
- Adjustable front sight bead and front sight protector hood
- 1” red rubber recoil pad
- Rigby oil finish on stock
- Serial number engraved on trigger guard
- Flame-blued extractor spring, bolt release spring and magazine follower
- Plastic mainspring on bolted action and floor plate
- Traditional rounded grip shape
- Hand finished chequering
- Action drilled and tapped for scope mounts
- Magazine holds four rounds plus one in the chamber

**REDEFINING TRADITION**

Everyone knows us for large-calibre hunting rifles, so the notion of introducing a new small-calibre model required considerable thought. After the phenomenal response to the commemorative Corbett rifle, we decided to model the Highland Stalker on the look of the original .275 Rigby, which was the ubiquitous rifle of its time. We are extremely proud of the result: the Highland Stalker’s striking slim lines and rounded grip shape make it a very traditional yet practical lightweight frame that can be used for a variety of tasks. Our aim was to redefine tradition to ensure the Highland Stalker becomes a modern icon in its own right.

**UPGRADES AND ACCESSORIES**

Numerous upgrades are available, including specifying stock length and colour case hardening. The wood is available in a range of grades, plus eye-catching gold inlay can be added in the form of the ‘double R’ Rigby logo on the floor plate or bolt handle. Other options include a leather-covered pad, London Best oil finish and monogrammed silver oval.

**ACTION**

• Mauser 98 action, built to original specifications

**DEPENDABLE**

• Action drilled and tapped for scope mounts

**FLAME BLUED EXTRACTOR**

• Traditional Rigby pattern iron sights, regulated to 65, 150 and 250 yards

Big Game PH

Designed to be the perfect tool for the Professional Hunter, the PH boasts the classic lines and rock-solid engineering of the original Big Game rifle. Made in consultation with Professional Hunters in Africa, this version of the multi-award-winning Big Game rifle has been designed as a utilitarian, hardwearing gun for the field with a price point that is considerably lower than the original.

Big Game Vintage

Built to specifications taken from pre-1940s models in our London museum, the Vintage edition of the multi-award-winning Big Game rifle has been designed to capture the spirit and style of the renowned Rigbys of the past. The classic stock shape is taken from historic rifles in our collection and has no cheek piece. It features traditional pattern hand chequering and is made from specially selected grade A Turkish walnut, with a Rigby oil finish. The recoil bar and grip cap are colour case hardened.

The Rising Bite doesn’t just look good; it’s capable of consistently achieving ¾-inch groups. For me, it’s simply the best shooting double rifle on the planet.

Rising Bite Double Rifle

Named for its unique - and singularly strong - vertical bolt locking system, the Rigby Rising Bite is one of the most famous double rifles ever made. Increasing manufacturing costs meant that regular production at Rigby ceased in 1910, and the last custom order original Rising Bites left the factory in 1932. Four years ago, Rigby decided to resume production and reverse-engineered an original Rising Bite that had been delivered to the Maharana of Udaipur in 1902. That pristine action has been replicated in modern, top-quality steel with state-of-the-art technology and a master’s hand and eye.

Since the very beginning, Rigby rifles have epitomised adventurous spirit in its most elemental form. Yet, it is a Rigby Safari that makes carrying a Rigby an adventure of a lifetime.

Adventurers and sportsmen have been knocking on our door since the third John Rigby brought his business to London in the 1860s. Since then, legendary hunters, like Jim Corbett and ‘Karamojo’ Bell, have numbered among the more famous of our customers but it’s Rigby’s Safari that has inspired generations of sportsmen from all walks of life to take to the wild places in search of adventure.

Today, we offer bespoke safari experiences that equal the quality and sentiment put into our gunmaking worthy of bearing the Rigby name:

Come with us and forge lasting memories, with Rigby in hand. No matter the continent you wish to hunt, Rigby is your outfitter.

Since the very beginning, Rigby rifles have epitomised adventurous spirit in its most elemental form. Yet, it is a Rigby Safari that makes carrying a Rigby an adventure of a lifetime.
